

Ride to Fayetteville, TN

17 June 2017

Today's traveler's
 Carl & Jan Breeding
 Michael & Rita Moore
 Mickey Breeding

First stop was Scott's Orchard for some apple and peach cider. The peach cider was sooooo good.

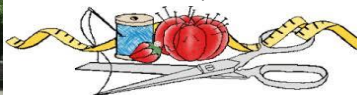

Carl, Mike & Rita

They had some hand carved wooden bowls for sale. Beautiful bowls

Mike & Rita

A stop in Fayetteville would not be complete without a stop at Sir's Fabrics. We found some nice fabrics

Ride to Fayetteville, TN

17 June 2017

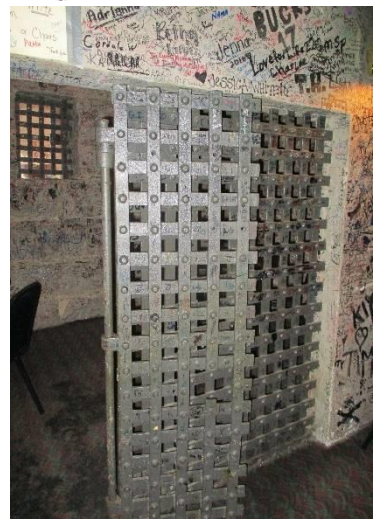

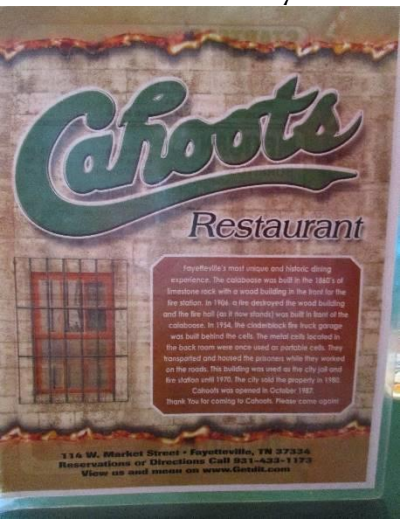

Lunch was at Cahoots. They were very nice and welcomed Mickey

View from Carl's bike looking backwards

Mike & Rita, Jan and Mickey are in the car

My favorite overlook on route 110 in TN. Just outside of Fayetteville

Fayetteville's most unique and historic dining experience. The calaboose was built in the 1860's of limestone rock with a wood building in the front for the fire station. In 1906, a fire destroyed the wood building and the fire hall (as it now stands) was built in front of the calaboose. In 1954, the cinderblock fire truck garage was built behind the cells. The metal cells located in the back room were once used as portable cells. They transported and housed the prisoners while they worked on the roads. This building was used as the city jail and fire station until 1970. The city sold the property in 1980. Cahoots was opened in October 1987. Thank You for coming to Cahoots. Please come again!
